

# MODEL EN/14

## INFLATABLE DOCK SEAL

MODEL EN/14 AirLocke Dock Seal is specially designed to give the user a reduced cost while having most of the advantages of more expensive inflatable AirLocke Dock Seals.

### CONSIDER THESE ADVANTAGES:

- Seals all trucks 12' 0" to 13' 6" high\*.  
\* (on 48" dock).
- Switch operated, therefore, inflated only when needed - saving possible damage to seal and building when truck is placed.
- No rigid obstruction to complete 8' 0" opening in building.
- One unit fits docks 46" to 50" high.
- Blower mounts on outside of building above seal out of way of trucks and protected with metal hood from elements.
- Made of tough 14 oz. Neoprene coated Nylon.

**SIMPLE - INEXPENSIVE - PRACTICAL**  
**with LOW MAINTENANCE**
