

MODEL EN / 20

INFLATABLE DOCK SEAL

MODEL EN/20 AirLocke Dock Seal is specially designed for Postal and Government Requirements where mostly semi-trucks are to be sealed and a 20" projection of the seal is desired.

CONSIDER THESE ADVANTAGES:

- Seals all trucks 12' 0" to 13' 6" high*.
* (on 48" dock).
- Switch operated, therefore, inflated only when needed - saving possible damage to seal and building when truck is placed.
- No rigid obstruction to complete 8' 0" opening in building.
- One unit fits docks 46" to 50" high.
- Blower mounts on outside of building above seal out of way of trucks and protected with metal hood from elements.
- Made of tough 14 oz. Neoprene coated Nylon.
- Projects 20" from face of building.

SIMPLE - INEXPENSIVE - PRACTICAL
with LOW MAINTENANCE
