

MODEL HVP-2

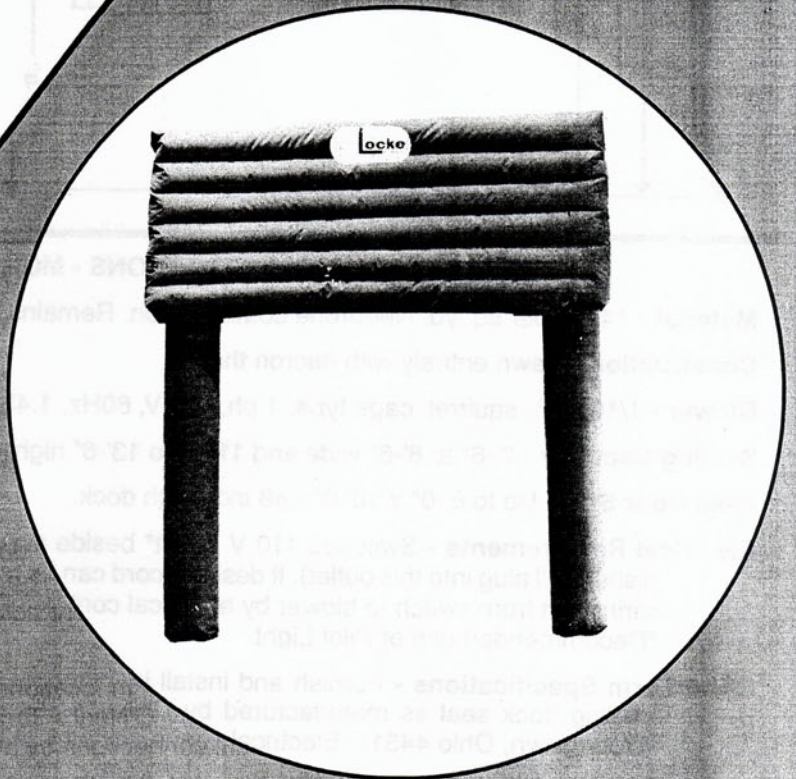

INFLATABLE DOCK SEAL

MODEL HVP-2 AirLocke Inflatable Dock Seal is uniquely designed to provide 100% unobstructed access to full height of truck and trailer opening.

CONSIDER THESE ADVANTAGES:

- Complete sealing capacity for all trucks, 11'-0" and higher.
- Top section lifts away from truck automatically each time seal is deflated. Sides fall back against wall. Seal is inflated against truck after truck is placed.
- Fabricated from 14 oz. neoprene coated nylon, the absolute best fabric for inflated seals.
- Built-in, year-round hood over dock area.
- Track Mount sides that simply snap into place.
- Anchoring screws and velcro attach top for complete simplicity.
- All metal frame, galvanized and aluminum. No wood to deteriorate.
- Trussed front section for greater stability.
- Internal lift cords and constant tension roller springs for ease of operation.

SIMPLE - INEXPENSIVE - PRACTICAL
with LOW MAINTENANCE
