

MODEL VEN/20

INFLATABLE DOCK SEAL

MODEL VEN/20 AirLocke Dock Seal is specially designed for Postal and Government requirements where a large variety of truck sizes are to be sealed and a 20" projection of the seal is desired.

CONSIDER THESE ADVANTAGES:

- Seals all trucks 11' 0" to 13' 6" high*.
*(on 48" dock).
- Variable height top can be extended or retracted at will.
- Switch operated, therefore, inflated only when needed saving possible damage to seal and building when truck is placed.
- No rigid obstruction to complete 8' 0" opening in building.
- One unit fits docks 46" to 50" high.
- Blower mounts on outside of building above seal out of way of trucks and protected with metal hood from elements.
- Fabricated from tough neoprene coated nylon and sewn with dacron thread.
- Projects 20" from face of building.

SIMPLE - INEXPENSIVE - PRACTICAL
with LOW MAINTENANCE
