

MODEL VSP

INFLATABLE DOCK SEAL

MODEL VSP AirLocke Inflatable Dock Seal is uniquely designed to provide 100% unobstructed access to truck and trailer openings.

CONSIDER THESE ADVANTAGES:

- Inflated sections on top and sides seal tightly with no intrusion into the rear opening of the truck.
- Blower and frame are mounted above the seal and out of the way of docking truck; no possibility of damage to the building or the seal.
- Switch operated - inflates only when needed; no problem of dock obstruction.
- Inflates to form a weather - tight insulating (65 cubic feet of air) seal between truck and dock opening - keeps inclement weather out; heated and conditioned air in.
- Fabricated from tough neoprene coated nylon and sewn with dacron thread.
- Seals trucks from 11'0" to 13'6" high; provides an opening up to 8' wide.

SIMPLE - INEXPENSIVE - PRACTICAL
with LOW MAINTENANCE
